DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1,

-line 1, "plural" has been changed to -plurality--;

-line 4, "p" has been changed to -piece--;

-line 7, "element" has been changed to -elements--.

In claim 2,

-line 2, "Layer" has been changed to -layer--.

In the Drawings,

Figures 3 and 6-8 have been labeled as -PRIOR ART--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a display having, inter alia, a power source supply line being buried within a protective layer (claim 1) and a method for manufacturing the display having, inter alia, the steps of forming the power source supply line so as to fill a through-hole in a protective layer and forming an insulating layer so as to cover the upper surface of the power source supply line disposed within the protective layer (claim 7). The remaining

claims 2-6 and 8 are allowed by virtue of their dependencies on the independent claims.

Hence, the examiner has allowed claims 1 through 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
